STRAIGHT EDGE TECHNOLOGY

For more than 18 years, Straight Edge Technology has provided IT support to companies in the South Texas area. Straight Edge recognizes the challenges many companies face with cyber security, operations and IT delivery, which affect predictable growth. Straightforward IT and cybersecurity solutions can give your business the competitive edge you need. Straight Edge specializes in IT services for legal, CPA firms, healthcare offices, oil and gas companies, construction businesses and nonprofits.

Straight Edge's owner, Douglass Miller, was born and raised in Corpus. He received a BS in Computer Science from Texas A&M-Corpus Christi before founding Straight Edge Technology, Inc. in 2006. He and his wife, Kristina, stay busy with their four children.

Doug believes IT support should be strategic, with a technology roadmap suited for unique needs and goals. Straight Edge focuses on proactive IT support that is built around relationships that last.
